APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 C.F.R. § 1.705

In response to the Determination of Patent Term Adjustment under 35 U.S.C. § 154(b) set forth in the Issue Notification mailed in connection with the above-captioned patent application on April 19, 2006, and as set forth on the cover of U.S. Patent No. 7,041,807, issued May 9, 2006, Applicants hereby request reconsideration of the patent term adjustment. Applicants submit that the current patent term adjustment should be 404 days, not 342 days as shown in the Patent Term Adjustment History on the PAIR system (Exhibit 1).

On December 7, 2005, the Office mailed a Notice of Allowance together with a Determination of Patent Term Adjustment stating that the patent term adjustment to date was 298 days. Applicants do not dispute this calculation. The Office subsequently recalculated the patent term adjustment by including an additional Office delay of 108 days and an additional Applicant delay of 64 days. Applicants agree with the additional Office delay of 108 days, which stems from the fact that the Office took 108 days longer than the three years from the actual filing date of the application allotted under 37 C.F.R. § 1.702(b) to issue the patent, not including any time consumed by continued examination of the application under 35 U.S.C. § 132 (b), as was filed in the present case on February 22, 2005. Applicants also agree with the additional 2 days of Applicant delay, which stems from the receipt of the Issue Fee Payment by the Office on March 9, 2006, a total of three months and 2 days after the mailing date of the Notice of Allowance and Fees Due. (Applicants note that the Issue Fee Payment was mailed on March 6, 2006.) However, Applicants disagree with the Office's determination of 62 days of additional Applicant delay.

According to the Office's records, as shown in Exhibit 1, the issue fee payment was received by the Office on March 9, 2006, which is within the three-month time period for reply to the Notice of Allowance mailed on December 7, 2005. Furthermore, Applicants met all requirements for issuance of the patent on March 9, 2006 and did not file any subsequent papers that could conceivably be the basis of a further patent term adjustment. The document listed as "Miscellaneous Incoming Letter" on the Patent Term

Adjustment History shown in Exhibit 1 is also listed as “Miscellaneous Incoming Letter” on the Patent Application Information Retrieval (PAIR) Image File Wrapper for the present application (enclosed as Exhibit 2). This appears to be the document from which the Applicant delay of 62 days is calculated. Applicants have downloaded the document from the PAIR site and found that it corresponds to the Reply to Notice of Allowance that was filed on March 6, 2006, along with the completed fee transmittal and the check in payment of the issue fee. A copy of the document, as downloaded from the PAIR site, is enclosed as Exhibit 3. The Reply to Notice of Allowance was filed within the allowed three-month time period and should not be construed as an additional paper that would be the basis of a further patent term adjustment.

Applicants note that, following the Notice of Allowance, there were no other papers filed by Applicants and no circumstances constituting a failure by Applicants to engage in reasonable efforts to conclude processing or examination of the application as set forth in 37 C.F.R. § 1.704. Therefore, Applicants submit that it is improper to attribute an additional 62 days of delay to Applicants.

In view of the above facts, this application is currently entitled to 404 days of patent term adjustment. The proper patent term adjustment is 778 days for Office delay reduced by 374 days for Applicants’ delay, or 404 days.

The present patent is not subject to a Terminal Disclaimer.

CONCLUSION

Applicants submit that the current patent term adjustment should be 404 days and hereby request reconsideration of the patent term adjustment.

Enclosed is a check in the amount of \$200.00 for the fee set forth in 37 C.F.R.

Respectfully submitted,
